

# INNOVATION

# PROFI**FIX**®

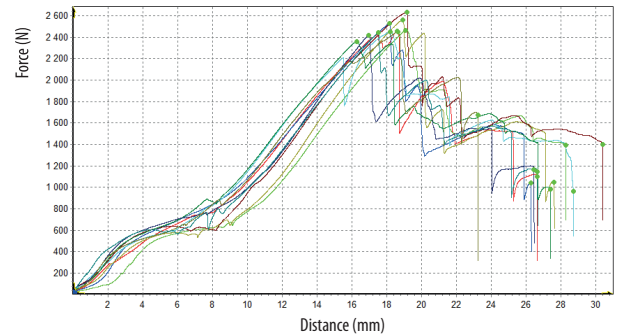

## Straight ceiling suspension - SPECIAL

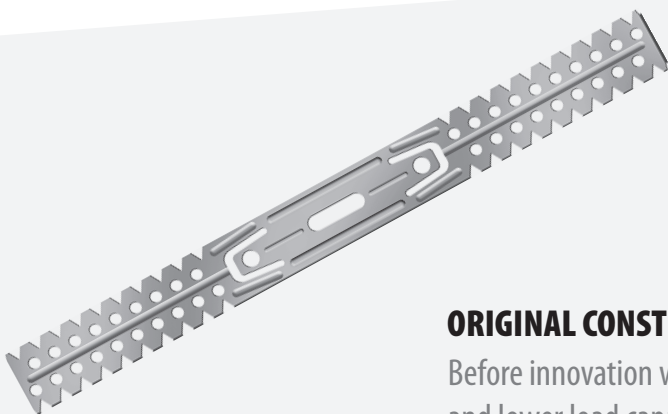

### NEW MODEL

- Modified design to enable more comfortable handling and assembly.
- Increase in load capacity due to widening and reinforcement of surfaces in stress areas.
- Increased stiffness through mouldings.
- Strengthened resistance to mechanical pressure and tension.

Tensile/compressive test

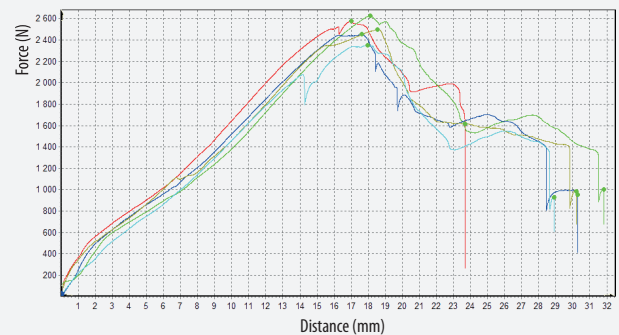

▲ **910 N / 91 Kg**  
● **LOAD BEARING CAPACITY**  
▼ **852 N / 85 Kg**

### ORIGINAL CONSTRUCTION

Before innovation with sharp edges and lower load capacity.

Tensile/compressive test
